

Library Science eLearning Assignment

Second Grade

Week 7: May 4 - May 8

Activity: May the Fourth Be With You! Space Week

May 4th is Star Wars Day. Throughout the week, we will be celebrating authors who write Star Wars related series as well as focusing on authors who write non-fiction. The objectives of this eLearning assignment are: for students to use a database to learn more about a space related topic. For students to build, draw, or create something related to space.

First, use a database to learn about space!

Choice 1: PebbleGo

Go to: www.pebblego.com (The username and password are the standard CPS database usernames and passwords. Email your librarian if you don't remember them.)

Click on the following links to find space

Science

Earth and Space Science

Space Science

Pick one or more topics in the space section and read all about your topic.

On a piece of paper:

Write: your name, your topic, "I got my information from Pebble Go." Write the TWO most interesting facts you learned.

Draw: one thing you learned

Choice 2: Abdo Zoom

Abdo Zoom is providing free access through June 2020.

Go to: abdozoom.com

Username: abdo zoom

Password: 2020

Click on the following links to find space

STEAM

Outer Space

From here, click on topics until you find an article to read/listen to.

Pick one or more topics in the space section and read all about your topic.

On a piece of paper:

Write: your name, your topic, "I got my information from AbdoZoom." Write the TWO most interesting facts you learned.

Draw: one thing you learned

Optional: create something space-related!

1. **Choice 1:** Go to <https://www.nasa.gov/stem-at-home-for-students-k-4.html> Go to the section that says "Build it." Choose one of the choices that works for what you have at home.
2. **Choice 2:** Go to <https://www.nasa.gov/stem-at-home-for-students-k-4.html> Go to the section that says "Build it." Choose one of the choices that works for what you have at home.
3. **Choice 3:** Create an illustration related to something you see on <https://www.nasa.gov/stem-at-home-for-students-k-4.html>.

To send in your Space Science research with your full name and room number or a photo of what you created, email your librarian at gerowe@cps.edu or maalbarran2@cps.edu

Office Hours: We will be available by email throughout the school day (8:30am-4pm), and will respond quickly. After these hours, we will respond the next day.

Read Aloud Resources: The Chicago Public Library is hosting daily read alouds with guest readers and librarians on [Facebook Live](#) at 10am each day!

Check the library website at waltdisneyslibrary.weebly.com for engaging activities and resources that will be shared daily!
