

Library Science eLearning Assignment - Kindergarten

Week 9 May 18-22

For your library assignment this week we are asking you to:

- **Research** using selected databases
- **Learn** about a notable person OR a topic that interests you
- **IF you are interested you can share** a short "elevator pitch" about the most important facts you learned in writing OR video.

Please see the lesson below for an explanation of each activity.

[Watch this video for answers to frequently asked questions.](#)

Click through to the grade level page on the [library website](#) for screencasts on using the databases and example elevator pitch videos from the librarians.

Step 1

Choose **ONE** of the following databases to use for your research.

PebbleGo.com	Abdo Zoom
Email your librarian for the username & password! It is the CPS database username and password if you remember it. Use this screencast for help signing in and navigating.	Username: abdo zoom (There is a space!) Password: 2020 Use this screencast for help signing in and navigating.

Step 2

Choose a person you would like to learn about OR any other topic that interests you! Read about that topic.

Step 3

Tell someone at home OR record your elevator pitch of what makes your topic so interesting. The idea is that your elevator pitch sounds like you, NOT like you copied from the database. You are trying to help someone understand the big ideas of your topic and what makes it interesting.

Step 4

If you'd like to share your video with your librarian via email please do -Ms. Rowe at gerowe@cps.edu OR Ms. Albarran at maalbarran2@cps.edu. If you would like your work to be shared on the Library website or social media, ask a parent or guardian to email us with their written permission.

Office Hours: We will be available by email throughout the school day (8:30am-4pm), and will respond quickly. After these hours, we will respond the next day.
